

I was a coal miner for several years. I have a lot of back and hip pain. I am currently seeing Dr. Owen Powers, Sr. at the Wise Chiropractic Clinic. I am doing much better. I don't have to go to the bathroom as often at night. I am getting more rest and feeling better with each visit.

-Carl Stidham, Sr.

Before going to Dr. Owen Powers at the Wise Chiropractic Clinic, I was in pain all the time and was taking pain medication every six hours. Now I am pain free without medication, thanks to Dr. Powers.

-Grace L. Stidham

In mid April we started our spring yard cleanup with 75 decorator stones. I turned over and made new bases and replaced. My back kept me in bed for 2 days. High powered pain relievers made me sick at my stomach. The pain got worse, severe pain would take my breath. A friend said see the chiropractor, Dr. Owen Powers, I did. First treatment 50% pain relief. By the end of the treatments the pain was all gone. Great appreciation to Dr. Owen Powers.

-Everett Sherman

I have suffered from back and neck problems for years. During this time, I sought relief from a host of doctors and specialists but nothing seemed to help. I was at the point where I was considering surgery.

I had always been skeptical of chiropractic services so as a last resort, I scheduled an appointment with Dr. Owen Powers.

My first treatment was a pleasant and relaxing experience, but I was not convinced that my ailment had improved. However, after a few sessions, there was no doubt that both my neck and back were physically healthier than they had been in years.

My experience with Wise Chiropractic Clinic has been wonderful. Dr. Powers and his wife Judy have been great.
